Britain Is Amazed At Nazi Peace Demands Imposed Upon France

British Government Makes Known Terms Of Armistice For France

FRENCH NATION IS VIRTUALLY REMOVED

Germany Demands French Fleet Be Int[illegible]—"Will Not Use It"

By CHARLES A. SMITH
International News Service Staff Correspondent

LONDON, June 24—With a decimated, conquered France bowed beneath the yoke of harsh Nazi peace demands, an infuriated Britain today stood alone, determined to fight to the end against the mighty military juggernaut of Chancellor Hitler.

While it was not expected that Germany would be over-generous in her peace terms, Britain today was furious over the demands made by the Nazis upon England's former ally—demands which virtually remove the French nation as an entity in the European picture.

Break Relations

As a result of French acceptance of the German terms, the British immediately broke off relations with the Bordeaux government of France, and instead will recognize a "provisional" French exile government now being organized to carry on the war.

Formation of a "French national committee," was announced by General Charles De Gaulle, undersecretary of war in the former French cabinet of Premier Paul Reynaud, and with this body Britain will carry on the conflict against the Reich.

The terms of the Armistice forced upon a vanquished France, and which the British term intolerable, require Nazi occupation of all of northern France and of her western coast, disarmament and disbanding of the French fighting forces, impounding of the French fleet—and France still has not revealed what further concessions must be granted to Germany's ally, Italy.

There was some astonishment in Britain when the Germans demanded only internment of the French fleet, rather than its surrender for use against England.

Breach Of Faith

But the harshness of the armistice terms was such that Britain

Wide Open Race For Nomination At Philadelphia

Convention Opens With No Certainty As To Party's Ticket Selection

TAFT IS FAVORITE ON OPENING DAY

Willkie Boom Worries Leaders Of Campaigns For Other Candidates

By WILLIAM K. HUTCHINSON
International News Service Staff Correspondent

PHILADELPHIA, June 24.—As sentiment crystalized for a flat declaration against American involvement in the European war, the Republican party assembled here today in its 22nd convention to face a wide open race over the presidential nomination.

An ever increasing demand spread among assembling delegates for a platform, branding the New Deal administration as the "war party" and pledging the Republicans against intervention abroad.

A pre-convention platform has been written, with the unanimous endorsement of a special subcommittee, dominated by "isolationists." This platform contains a forthright condemnation of the Roosevelt administration's "bungling abroad" and pledges the Republican party to "preparedness and peace." It will be submitted to a regularly elected resolutions committee for ratification.

Taft Rules Favorite

Senator Robert A. Taft of Ohio, ruled the favorite on opening day, replacing New York racket-buster Thomas E. Dewey, as Wendell Willkie, utility executive and former Democrat, staged a series of sensational raids on all opposing camps. Despite the Willkie raids, there was real optimism at Taft headquarters while the Dewey managers indignantly denied opposition charges that their favorite was slipping.

The Willkie raids, curiously enough, created a wave of fresh confidence among the lesser dark horse possibilities. This was one of the strangest developments from the eleventh-hour drive to capture the convention for Willkie.

There was renewed activity among

Expect French To Capitulate To Mussolini

French And Italian Representatives Confer On Italy's Demands

MUSSOLINI NOT IN ATTENDANCE

Acceptance Of Terms Will End Hostilities In Continental Europe

By PERCY WINNER
International News Service Staff Correspondent

ROME, June 24.—Capitulation of the French government of Premier Marshal Henri Petain to the armistice terms of Premier Mussolini was expected today, following which hostilities will cease in continental Europe.

Six hours after Germany is notified of French acceptance of Italy's terms, the "cease fire" order will be given to the armies on both sides in France, after which Germany and Italy will be actively at war only with Great Britain.

Officials in Rome disclaimed knowledge of the alleged armistice terms as given out in London, and informed quarters stated that Germany's terms were neither harsh nor unreasonable in view of the circumstances, especially in view of the necessity of continuing the war against England.

Fighting Continues

Even as the French and Italian representatives discussed the Armistice terms, fighting continued. An official communique revealed:

"Italian troops reached the bottom of the Yser Valley and other French points, penetrating the French fortifications system.

"The enemy bombed Palermo yesterday afternoon, killing 25 and wounding 153 of the civilian population.

Speed was the watchword governing Franco-Italian negotiations. Immediately after signing the Armistice with the Reich, the French

Non-Involvement In European War To Be Republican Demand

By GRIFFING BANCROFT, Jr.
International News Service Staff Correspondent

PHILADELPHIA, June 24.—The platform upon which the Republican party will go before the voters in November began to take final form today as the G.O.P. nominating convention got underway.

Still to be ironed out were some aspects of the foreign policy plank, but on this controversial issue party leaders apparently had bowed to the growing strength of the isolationists and foes of New Deal foreign policy.

There was still an off chance that this plank would have to be fought out on the floor, but indications were the advocates of "aid to the Allies" had capitulated.

Non-Involvement Stand

A foreign policy sub-committee headed by Alfred M. Landon, the party's 1936 nominee, finally came to a unanimous agreement on a strong non-involvement stand last night and fell to work today preparing a final draft.

Western isolationists, however, withheld final approval until the formal draft is produced, announc-

Four Boys Drown Near Moundsville

One Of Youths Dies In Heroic Effort To Save Other Three

(International News Service)

MOUNDSVILLE, W. Va., June 24—Residents of McMechen, W. Va., planned today to nominate Sammy Geogelein, 19-year-old high school senior who vainly sacrificed his life yesterday in an effort to save three companions from drowning, for a Carnegie hero medal.

Geogelein, Melvin, Craddock, 19, Earl Poland, 21, and William Clark, 20, were drowned when their frail boat capsized in the churning water beneath U. S. Dam No. 13. They had rowed close to the dam to take pictures.

Geogelein, a powerful swimmer, was headed for safety but turned back in answer to the frantic cries of his companions. He shoved Craddock to a safe place under the dam's wickets, but the panic stricken youth leaped into the water and wrapped his arms around his rescuer's neck. All four were drowned before dam employes could reach them in a boat.

French Credits In U.S. Diplomatic Problem

By JOSEPH H. BAIRD
International News Service Staff Correspondent

WASHINGTON, June 24—The United States, it was indicated today, may be expected to cooperate with any representative French government that successfully continue a prosecution of war against Germany.

Whether this will mean accrediting Ambassador William C. Bullitt to the French national committee being set up in London, officials at this early stage, were unable to say. Nor would the French embassy predict it's allegiance—whether to the Bordeaux government now completely dominated by Germany or to the London group.

President Roosevelt and Secretary of State Hull, meanwhile, were confronted with one of the most delicate diplomatic problems in history. Not only the question of recognition, but the fate of more than $1,250,000,000 in French credits and gold in this country must be decided.

CONVENTION HALL, Philadelphia, June 24.—The Republican national convention today formally organized to shape the party's 1940 destinies in a nation that must live with a world at war.

With the 1,000 delegates apparently moving toward a declaration against American involvement in Europe's conflict, the convention spent a brief 45 minutes disposing of the traditional formalities that attend preliminary organization and then recessed to convene again at 4:30 p. m. for solemn services at Independence Hall, rededicating the party to the historic and fundamental principles on which this nation was founded.

It was a comparatively quiet and routine session, the real business at hand still being transacted in the down town hotels where a resolutions' committee was whipping a platform into final shape and candidates and their supporters were working feverishly at the business of corraling delegates.

About 9,000 Spectators

Nevertheless the opening session drew about 9,000 spectators with practically every seat on the main floor occupied. But there was plenty of room in the galleries.

Seek To Hold State Votes For James

Fear Break On Second Ballot

Rumors Part Of Delegation May Swing To Willkie Are Circulated

JAMES LEADERS ARE CONFIDENT

By RAYMOND WILCOVE
International News Service Staff Correspondent

PHILADELPHIA, June 24—Pennsylvania leaders strove today as the Republican National convention got underway to hold the large Keystone State delegation intact for Gov. Arthur H. James as rumors spread that part of it might break away after the first ballot.

The Pennsylvania delegation, comprising the second largest bloc of votes at the convention will hold its first official caucus today prior to the convention opening. It is believed an attempt will be made to bind the delegates to vote for James until he releases them.

Former state Sen. Frank Harris, who heads the Allegheny county delegation, is known to be prepared to swing from 10 to 12 votes Wendell Willkie on the second ballot.

At the same time, Willkie supporters claimed 30 vote from the Pennsylvania delegation. The New York utility executive himself merely said he has "many."

Defection Would Be Serious

Aware that a defection of 10 to 12 votes from the Allegheny county delegation might wreck whatever chances Governor James has of obtaining the nomination, his leaders sought to line up a "surprising vote" for James on the first ballot. A substantial vote on the first ballot, they believed would have the defect of holding wavering delegates in line.

A prediction that the Florida delegation would vote for Governor James was made by Mrs. Worthington Scranton, national committeewoman from Scranton at an enthusiastic James-for-president meeting held last night at the Benjamin Franklin Hotel. Mrs. Scranton said a Florida delegate told her James would receive the state's 12 votes on the first ballot.

Some votes would also be forthcoming, James' supporters said, from the Washington and Tennessee delegations. Just how many will not be known until the balloting actually starts, probably late Wednesday or Thursday.

The James leaders felt they had a fighting chance to nominate their candidate if the delegation could be held behind the governor sufficiently long to convince the convention—which they felt sure would become deadlocked—that James was its man.

plenipotentiaries boarded three German planes and flew to Rome, via Munich.

Conference Under Way

They were driven by motor to a secret meeting place at a country house 12 miles from Rome, and the momentous conference immediately got under way.

Premier Mussolini did not personally attend the meeting, as did Chancellor Hitler at Compiegne. Instead his son-in-law, Foregin Minister Count Galeazzo Ciano, and Marshal Pietro Badoglio, chief of staff, headed the Italian delegation.

Formalities were cut short, and after delivering Italy's terms the Italian delegation left the meeting place.

The French delegation, the same which signed Hitler's terms in the historic railway car in Compiegne forest where the 1918 armistice was signed, then communicated Il Duce's terms to Premier Petain in Bordeaux.

French Consider Terms

Bordeaux, June 24.—The French government met at 8 o'clock this morning (2 a. m. EDT) to consider the terms for an armistice submitted by Premier Mussolini of Italy.

After a 45-minute session, the meeting was suspended to reconvene again at 9:30 a. m.

With President Albert Lebrun presiding, the government studied the terms submitted last night to the French delegation in Italy and it was expected that within a few hours the French answer would be forthcoming.

If the French accept Il Duce's terms—and competent quarters are of the opinion they must accept—the "cease firing" command will be given in continental Europe six hours after the French acceptance is communicated to Berlin.

(Meanwhile, the French government was reported by the Berlin radio to be preparing a manifesto assailing as "intolerable" the attiude of the British government toward the Bordeaux regime in France.)

Illinois Driver Escapes Injury At Rose Point

Car Smashes Guard Rail And Overturns But He Is Not Hurt

An Illinois man whose name was not learned miraculously escaped death or serious injury shortly before noon Sunday when his heavy 1940 sedan shattered three or four guardrail posts and plunged over a 10-foot-high bank into the field below the Rose Point Reformed Presbyterian church at Rose Point.

When the car's wild hurdle ended, it was upside down in the field. It came to rest not far from the bridge over Slippery Rock Creek.

Two hours after the crash, the highway was jammed by curious passersby, but Pennsylvania motor police there this morning said they had no report of the crash.

Those at the wreck scene, said the driver, alone, climbed unhurt from the car and "walked up the highway toward Rose Point."

followers of former president Herbert Hoover, Senator Arthur H. Vandenberg, Republican House Leader Joseph W. Martin, Hanford Macnider of Iowa, Publisher Frank E. Gannett, Senator Styles Bridges and Governor Arthur H. James of the host state. It appeared these factions believed the Willkie boom would deadlock the Taft and Dewey drives, thereby opening the way to a compromise candidate from their own ranks.

May Favor Hoover

One prominent Republican expressed this v ":

"The convention may end this three-way fight by making Hoover the favorite Wednesday."

He referred, of course, to the address Hoove ill make to the convention Tuesd y night as the only living ex-president.

The Martin followers were jubilant by reports that Massachusetts would give him its entire 34 votes as a compliment without his name even being placed in nomination.

A Vandenberg friend observed:

"It may yet be Van."

At Bridges headquarters, a spokesman said he alone had withstood the Willkie raids to date and he had a chance of taking the first prize.

The James headquarters were buoyant with announcement that Florida is expected to give the Pennsylvania governor its 12 delegates. This offset a Willkie raid within the Keystone State that may net the utility executive from 10 to 30 votes.

The Willkie "blitzkrieg" actually was making headway and winning delegates. But its sweep was deceptive because it started from nothing and every single delegate won by him represented a gain over nothing. At his own headquarters, a manager said:

"Willkie will be third on the first ballot. We give Dewey 371, Taft 242 and Willkie 178 on the first ballot."

Willkie himself said:

"I'll fold up in my chair if I don't get more than a hundred delegates on the first ballot."

One distinct Willkie gain was his capture of the Connecticut delegation of 16 votes. Willkie personally announced that the nutmeg state's governor, Raymond E. Baldwin, would second his nomination. This means Baldwin eliminated himself as a favorite son candidate.

DEWEY PLANS HIS STRATEGY

(Continued From Page One)

hours, he had been holding a series of conferences with delegates from all parts of the country.

While big, good-humored Wendell L. Willkie, the utility executive with the common touch, was "stealing the show" by moving from one crowded hotel lobby to another glad-handing political big-wigs and delegates, Dewey stayed put in his own hotel. The young "fighting prosecutor" was acutely aware of the menace of the Willkie upsurge but he was meeting the situation in his own way.

Dewey Confers

Dewey, with clock-like precision, conferred with group after group of delegates in private, paying no attention to Willkie's public appearances. All day Sunday, and again today, he saw delegates from North Carolina, Indiana, Florida, Tennessee, Oregon, Michigan and other states. The entire delegation from Oklahoma called to see him.

If Dewey was alarmed by the amazing spread of the Willkie movement, he didn't show it.

Dewey's headquarters staff seemed jittery in comparison with confident candidate himself. On all sides the delegates and the people were talking Willkie. Reports of Willkie raids on Dewey, Taft, Vandenberg, Gannett and other candidates kept coming in and even the Dewey organization, which expected to be out in front in a definite way, was thrown on the defensive.

FRENCH CREDITS DIPLOMATIC PROBLEM

(Continued From Page One)

French Ambassador here, Rene de St. Quentin, without a written order from the treasury department. This step was taken to prevent the possibility of their passing to Germany by way of a subservient French government.

It is expected that if the French committee in London is able to mobilize the support and resources of Frenchmen abroad, and with the aid of the French colonies, carry on the war, the funds held in this country may be released to it.

If not, they probably will continue to be held in custody, at least until the end of the war. The administration was described as loath to release them to any government or group which might permit their passing into the hands of the Germans.

There is ample precedent, observers pointed out, for American diplomatic recognition of a French government functioning on British soil. After the German occupation of Warsaw the United States continued to accredit Ambassador Anthony J. Drexel Biddle to a Polish government functioning in France. Due to the German occupation, the fate of this Polish government is now in doubt.

Washington officials were not particularly surprised at the severity of the German armistice terms. It had been anticipated that if the French were forced to surrender, they would be threatened, at least for the duration of the war between Germany and Great Britain, as a conquered people—policed by a German army to make sure that they contributed no further aid to the British.

NON-INVOLVEMENT IN EUROPEAN WAR TO BE REPUBLICAN DEMAND

(Continued From Page One)

ing they would stand firmly on their insistence for a plank which will permit Republican nominees from presidential to congressional to brand the Democrats the "war party" and campaign on that issue.

The plank is to be handed to the powerful resolutions committee by Landon late today and from there, if it passes isolationist scrutiny, it will go to the floor incorporated in the rest of the platform.

"Keep Out Of Foreign Wars"

Meanwhile Senator John Thomas of Idaho, chairman of an 11-state western conference of delegates, was ready to call his group together to decide if the Landon committee's plank will be acceptable.

Thomas drew up a proposed plank for his conference which stated the non-involvement stand in strongest terms. It would pledge the party, if it got back into power "to mind our own business in international affairs" and to keep out of foreign wars.

"We condemn all acts of the New Deal administration that have tended to draw the United States into Europe's war," Thomas' plank read.

"We condemn the quasi-legal sale of airplanes and warships to the Allies which endanger our own national defense, though we recognize the right of American citizens to express their sympathies for them and to extend aid within the legal limits of the neutrality act."

The Landon committee agreed on a plank along the same line, but it was believed the wording would not be quite so strong when the final draft was passed by the resolutions committee.

STEP ON IT
Business men of the city,—when a party wants something that you have for sale, or your hear that he has a dollar to spend, get busy, don't tell him you will see him tomorrow or next week and then forget about it. But get that dollar. Don't haggle with him about where he got it or whether it has a mark or two on it, or just how he is going to hand it to you, but give him the service and give it to him immediately, so that you will be able to get that money he wants to spend.
There is not so much the matter with the country today, as it is the men that are in it. There are too many of them asleep at the switch, who think more about how many hours they should work, not how much service they can give to their customers.

Freeman-Stanton Wedding
New Wilmington Event

The beautiful lawn surrounding the home of Prof. and Mrs. Edward Hendee Freeman, at New Wilmington, provided a perfect setting for the wedding Saturday of their daughter, Miss Katharine Hendee Freeman, to David Henry Stanton, Jr., son of Mr. and Mrs. David Henry Stanton, Sr., of Sherman, N. Y., which was a hightlight on the June social calendar.

The marriage ceremony was performed by Dr. Robert Ferguson Galbreath, president of Westminster college, and he was assisted by Dr. J. Ralph Neale, pastor of the United Presbyterian church at New Wilmington. The vows were exchanged at 11:30 o'clock in the presence of an assemblage of guests.

An improvised aisle of white, outlined with trailing honeysuckle vine, led from the house across the lawn to a century-old hickory tree. In its shade was an altar of evergreens, orange blossoms and peonies, combined with delphinium, lending a colorful background, where the bridal party stood.

The bride was given in marriage by her father, Prof. Edward Hendee Freeman, of the Westminster faculty. She was lovely in her traditional gown of white silk jersey, with fingertip veil of tulle. She carried white calla lilies and white delphinium in arm cluster.

Miss Alice Marion Freeman, as maid of honor, was attractive in a draped gown of delphinium blue jersey, with pink Kilarney roses adorning her head. She carried an arm bouquet of matching flowers, mixed with blue delphinium. Other attendants were flower girls, Beverly Ann Jones of Youngstown, O., and Katharine Foulke Russell of New Wilmington. They donned identical gowns of pink dotted swiss and carried basket hats with handles of delphinium blue maline, which contained multi-colored flowers. These were strewn in the path of the bride.

Calvin Jolly of Pittsburgh, college room mate of the bridegroom, served as best man.

Preceding the ceremony, Miss Betty Mason, soprano, and Miss Helen Francis, pianist, gave a recital, followed by the opening Wedding March by Lohengrin.

The bride's mother chose a gown of mauve marquesitte and her shoulder corsage of gerbia and larkspur gave a striking contrast. Mrs. Stanton, the bridegroom's mother, was attired in a blue lace gown with shoulder bouquet of pink roses and blue bachelor buttons.

Supplementing the ceremony, a wedding reception was held on the lawn, followed by a buffet breakfast.

The bridal party was seated at a large round table arranged on the veranda, and appointed with a beautiful arrangement of silver moon roses, orange blossoms and honeysuckle.

Guests were present from Boston, Niagara Falls, Sherman, N. Y., Jamestown, N. Y., Erie, Youngstown, O., Pittsburgh, Ellwood City, West Middlesex, Butler, New Castle, Conneaut, O., Buffalo, N. Y., and New Wilmington.

The couple left on a trip later in the day, and they will return to the Athenaeum hotel, at Lake Chautauqua, where they plan to spend the summer.

The bride, a graduate of New Wilmington high, graduated from Westminster college. The bridegroom is also a graduate of Westminster college.

The rehearsal dinner was given Friday evening by Mrs. Elmer Beecher Russell of New Wilmington, at the Penn-Grove hotel in Grove City. The table, set in the ballroom, was decorated with white kilarney roses, pale pink Dr. Van Fleets blossoms, delphinium and honeysuckle, set off in the glow of lighted white candles in crystal holders.

BETTY LOU KENEHAN TO WED R. KETTERER

As a medium of making known the engagement of their daughter, Betty Lou, to Robert Ketterer of Wurtemburg, Mr. and Mrs. Fred D. Kenehan entertained at their home on Dewey avenue Saturday evening a group of guests at an announcement party.

Guests numbering 26 were entertained informally during the early period, and later, when lunch was served, the news was cleverly disclosed by means of a telegram. The message read "Betty and Bob, September". Mr. Ketterer is the son of Mr. and Mrs. Harry Ketterer of Wurtemburg.

Aides included Goldie Blaine, Mrs. E. E. Blaine and Frances Nolan.

Guests from out of town attended from Ellwood City, Youngstown, O., Columbus, O., and Wurtemburg.

DON'T UNDER-RATE PLANES AS WEAPONS

NAVAL men naturally are inclined to favor sea power as against air power. But it is somewhat surprising, at this late date, to hear from Rear Admiral Clark H. Woodward, commandant of the Third U. S. Naval District, New York, that "airplanes, regardless of type, are auxiliary weapons only, and because of their restricted limitations can never be anything else."

It may be, as Admiral Woodward asserts, that "no battleship in commission has ever been destroyed" by aerial bombing. But it is a fact that aerial bombing virtually nullified the effectiveness of the British Navy's efforts to break up the Nazi invasion of Norway and has been the cause of large Allied losses on the sea.

It would appear that all of our Navy leaders who still view the airplane as an auxiliary weapon only, and of secondary importance to the battle fleet, are taking a dangerously shortsighted view.

In the type of warfare waged by Hitler the airplane is a prime weapon, not an auxiliary. At the rate at which bombing and pursuit planes are now developing it is an open question how long the battleship will be a match for bombers.

For all we know, in spite of the traditional prestige of the battleship, we may be heading into an era when air power will be the deciding factor in hostilities whether at sea or on land.

One thing is certain. In drafting our new defense program we would do well not to be too much influenced by proponents of one or another branch of the armed services, to the neglect of other needs. If preparedness is worth the effort made for it, it should be thorough and complete. Surely there should be no tendency to underrate the airplane as a fighting weapon.

That we should have more battleships, cruisers, destroyers and submarines is obvious. But in the light of Hitler's air superiority over the French and British it is even more obvious that we should build up our air force until it is without doubt the world's best.

NOMINATING A CANDIDATE

It appears highly unlikely that any of the candidates will receive the Republican nomination for President on one of the first few ballots. A prolonged fight may ensue, such as that which tied up the Republican convention of 1920, and Democratic conventions of 1920 and 1924.

A glance at history proves that stampeding a convention is a difficult art. In 1844, Martin Van Buren, of New York, and Lewis Cass, of Michigan, were the principal Democratic claimants, but some clever men in Tennessee figured that the Whigs would nominate Henry Clay and the Democrats would lose the election unless they could find a fighting issue. The annexation of Texas might be made such an issue, but Van Buren, Cass and Clay were all opposed to such a measure. So these Tennessee Democrats got together with old Andy Jackson and laid a little plan.

They let the convention go along for seven ballots, with Van Buren and Cass running neck and neck and a scattering vote for R. M. Johnson, of Kentucky, and James Buchanan, of Pennsylvania. On the eighth ballot they introduced the name of James K. Polk, of Tennessee, and on the ninth he was nominated unanimously.

"Who's James K. Polk?" asked the Whigs. They found out; he was the boy who was pledged to the annexation of Texas.

It is not likely though that the present Republican Convention, if it becomes deadlocked, will emerge with a candidate pledged to the annexation of territory other than the White House grounds.

In 1852 the Democrats stampeded again. Case, Buchanan and Douglas, the latter from Illinois, were the principal candidates. On the thirty-fifth ballot, Virginia cast 15 votes for Franklin Pierce, of New Hampshire. His vote gradually mounted to 55 on the forty-eighth ballot, and on the next he received 282 votes to 6 for the field.

The strategy which led to his nomination has been variously credited. One version has it that it was engineered by Senator James W. Bradbury, of Maine, who intrigued with some Southern delegates. Another is that it was a speech made by James Cochran Dobbin, of North Carolina, which prevailed with the convention. At any rate, President Pierce remembered that speech and made Dobbin Secretary of the Navy. Is there any connection between Mr. Dobbin and the horse marines?

The Republican convention of 1880 was split between Grant and Blaine, with several favorite sons trailing—among them John Sherman, of Ohio, whose candidacy was managed by James A. Garfield. Garfield became prominent at an early stage of the convention, when as chairman of the rules committee he reported a rule to the effect that when the chairman of a state delegation had cast that delegation's vote, any member of the delegation could challenge that vote and demand a poll, which would determine how the various delegates stood; and those votes would be counted for the candidate for whom they were cast.

Garfield argued so well that the convention adopted the new regulation, abandoning the unit rule; and he became a marked man, hateful to the Grant managers, who had depended on the unit rule to hold their lines together.

On the twenty-eighth ballot, two delegates in the deadlocked convention voted for Garfield, against his protests. On the thirty-fourth he received 17 votes; on the thirty-fifth, 50, and on the next he received the nomination by a break in the Blaine ranks, and a stampede from the favorite sons—the Grant men holding their 306 intact to the end.

The Democratic convention of 1896 was badly split, with Richard P. Bland, of Missouri, the chief claimant in the early stages. But a fierce debate broke out on the question of free silver, and William J. Bryan, of Nebraska, enthralled the convention with his cross of gold, crown of thorns speech, an oration typical of the political emotionalism of the era.

In a field of 15, Bland led for three ballots, while Bryan gained 100 votes from hopeless favorite sons. On the fourth, Bryan skipped into the lead; on the fifth he lacked 12 votes, whereupon 78 opponents changed their votes and he was nominated. If he hadn't had an opportunity to make the famous speech which he had rehearsed up and down the Mississippi Valley, he probably wouldn't have had a chance.

Will a speech turn the tide if the Republican Convention of 1940 becomes deadlocked and, if so, to whom and on what issue? Here is American history being made as in the manner of old and its consequences certainly will be no less far-reaching than those which attended any previous battle for the Presidency.

The Parent Problem

By Garry C. Myers, Ph. D.

KEEP WAR TALK FROM HOME

Some of the horrors of the war are invisible. Even right now in the United States, thousands of children are burdened with anxieties and gloom because they hear at home so much talk about the war.

Whereas no intelligent adult in America can avoid feeling keen anxiety—and the more so for those of us who served in the World War and are ready again to serve in defense of our nation—we need to exercise our intelligence. We need to control our emotions, especially in the presence of our growing children. Even in the home with no children, we need to be calm and not allow ourselves to grow jittery and depressed, however hard we might find it to do so.

Parents who contantly talk at the dinner table or in the family elsewhere of their fears and anxieties about the progress of the horrible struggle in Europe, render themselves less efficient for their work, more gloomy in the family, less patient and more irritable to all about them.

Destructive Emotions

While we shall choose to stand back of an adequate defense program, let us confine our thoughts and efforts intelligently in this direction and not waste our energies on hampering and destructive emotions. Why should we weight down our innocent children with needless sorrows and anxieties?

Whether it is one of the blood-curdling favorites of children from 5 to 12 or the war news, whether the horrors related are fanciful or real, the artist on the air stirs up terrors as no print can do. Read the same thing in the newspaper you might hear on the radio and you are not so terrified. You can check so much better with your intelligence on what you read than on what you hear coming on fast and ominously on the air. What must be the effect on the sensitive listening children who can't, or seldom do, read reflectively or with perspective?

Therefore, my fellow parents, let me entreat you not to expose your children to the war news on the air. Far better to turn them to the comic items of the radio and the funny pages of the newspaper, especially to those that make these children laugh.

Laughs Needed

In these trying days, parents also need to laugh. They need to see movies that make them laugh. They need to hear and tell funny things at the dinner table and about the family fireside. They also need to encourage their children to tell jokes and funny experiences.

Parents of children from 2 to 6 or 8 should read aloud from well-selected stories to these children, and more now than ever before. Also let there be much reading in the family to one another—hopeful, cheerful reading.

Let us parents go to church to build in ourselves and our children more faith in the imperishables and gain for them and ourselves more calm and serenity. As never before, let us pray for faith in things that cannot be destroyed and pray for self-control.

You may have a selected list of books from which to read to the baby and young child by writing me at 235 E. 45th St., New York City, enclosing a self-addressed envelope with a three-cent stamp on it.

Solving Parent Problems

Q. Writing of a twelve-year-old, a mother says: "If we ask him to do anything he doesn't want to do, he generally protests loudly and, although we try to speak firmly and quietly, there is a battle. . . . When we tell him he can't have or do certain things he whines, mutters, talks to himself, sometimes goes into a tantrum; so we find it easier to give in."

A. You say yourself that you reward him for the kind of behavior in him you dislike: he wins. Once you have made a decision, state it clearly and shut up; but prove you have a spine. If, however, you ask him to do something, treat it as a request. Let him choose and don't get mad about it. Sharply draw the line between a request and a command; and please don't shift in relation to any situation from a request to a command, else all requests will be commands. Then what hope will you have to cultivate cooperation in that boy?

SAGE AND QUESTIONER

This life we live upon the earth
The records show begin at birth,
When first we draw a mortal's breath,
And ends with what is known as death.
"Right," said the sage,
"From age to age
We move along, and each in turn
Has lessons which we all must learn."

"So far, so good!" a questioner said,
"But can one live and still be dead?
And can one die and still live on?
Think you that life and death are one?
Suppose I drop
A care and stop,
Cry: 'Done with that, its charm has flown!'
Have I not died?"
The sage replied,
"Some merely call that older grown."

And what is life, can you explain?
Is it not sense of joy and pain
And love and hate and interest deep
And death the indifference known as sleep?
Is life not proved
By being moved
At sorrow's word or loss or gain.
Though still in breath
Is it not death
Unmoved, indifferent to remain?

HINTS AND DINTS

Sun sets tonight 7:35. Sun rises tomorrow 4:29.

About 99 per cent of the people of New Castle are in favor of strict enforcement of speeding laws and other automobile law violations. Stiff fines are the remedy.

White folks could do worse than adopt this unique prayer, giving credit to the colored brother who made it: "Lord, prop me up a little on my leanin' side."

The automobile fatilities for several years past has been greater during the month of July. Now is a good time to try to prevent that the coming July.

Down in Arkansas, a shiftless character piled into bed one night after a coon hunt, with shoes, clothes and all. After a while his wife shook him, "Get up, you got your shoes on," she said.

Then he mumbled: "That's all right, they ain't my good ones."

Even if you are right, a lot of birds will say you are wrong.

It has been proven to the satisfaction of most everybody that we have lived long enough in this world to see things worse than we ever dreamed of seeing them.

"I don't believe I like this car that I bought," said the autoist going back to the dealer's place after using the car a year.

"What's the matter?" said the dealer.

"When I go down the street, in this car, I'm so ashamed I just can't hold my head up," said the man.

"That's easy" said the dealer. "Just pay off this overdue balance and you'll be so proud your head will want to poke right through the top."

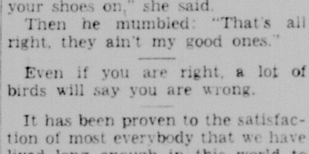
Using some sort of fact-finding gadget, a scientist discovers that a blond is as affectionate as a brunet, and vice versa. Old stuff.

The best man for a public office is not always the best candidate. Ability don't count much in politics.

Now and then a physician attends a banquet to pick out future patients.

A bride, buying seed for trees, asked if they would grow strong, sturdy trees. Told that seeds would grown, and do just that, she said:

"Well, I'll buy a hammock to tie to the trees.



Spending $185 to entertain an out-of-town customer is good business unless he is smart enough to realize that all expenses are added to the price of goods.

A bill already passed by congress and now before the senate would make automobile owners pay about ten per cent more tax a year in one way or another. Bet most of those birds use government owned automobiles.

A jack-of-all-trades is all right if he is good at all of them.

HERE'S A NEW ONE

A man who had been out nearly all night, was undressing when his wife waked up and asked:

"Aren't you getting up ratner early?"

He put on all the clothes he had taken off, went down town and slept a couple hours on his office lounge.—Gossiper.

Now they say that high heels were invented by a woman who had been kissed on the forehead.

A Beaver, Pa., junk dealer was fined $500 and a year in jail for buying junk from minors. That's one law that don't seem to be enforced very much. A minor can't do anything any more, at least in the daytime.

One writer says "A few more wars will plunge the world back into pologamy." Surely not many people are prepared for that.

Waste and carelessness cost this country millions every day. The waste can be seen in most any garbage can.

"Neighbors," says the Office Grouch, "are people who notice everything about your place except that their pets are ruining your lawn and garden.

We have known people who spread rumors who are really worse than the people they spread rumors about.

O, LITTLE BREEZE

O' little breeze, O little breeze,
That runs before the dawn,
That ruffles up the sleepy trees,
And brushes down the lawn.
Thy step is light, thy face is bright
Thy wingless flight brings healing
From space far where a morning's star
Its ageless arc is wheeling.

O Little breeze, O little breeze,
That ushers in the sun,
While half the world is yet asleep
The heralding is done:
Ere half the earth awakes to mirth
Thy feet its girth have taken
And speed along thy path of song
Still other worlds to waken.

Do not believe rumors and do not spread them.

If military training don't do anything but teach discipline it's worth trying.

Remember, when the war is over, America will not stand very high with the foreign dictators, and even less if they win all they go after.

A kid was making a playmate uncomfortable.

"Why do you do that?" asked the father. "Why don't you ask him to go home, and tell him you have to go into the house?"

"Dad, that wouldn't be polite," replied the boy.

Hitler once said "Christianity is a religion for slaves and fools." Nuff ced!

It looks as if couples are getting up enough courage to buck the new marriage license law in order to get married. At least more are applying for licenses.

HICKS WON'T DO THAT AGAIN

Having tried for a half hour, unsuccessfully to get certain admissions from a young witness in a damage suit, Lawyer Hicks thought to irritate him that, possibly, in his confusion, the witness might make some statement helpful to the defense.

"By the way," he began, "are you working now?"

"No," replied the boy.

"What does your father do?"

"He hasn't a job either."

"Doesn't he do anything to support the family?"

"Odd jobs once in a while."

"Now then, as a matter of fact, isn't it true that both you and your father are sort of worthless fellows, who do not care for any kind of work?"

"As for myself, I'll answer 'No,' shouted the boy. "As for Dad, ask him, he's right over there on the jury."

Honesty did not make a sucker of Abraham Lincoln. Why should anyone be afraid to try it?

It may look suspicious, but if the underclothes are fresh, and the toe nails newly trimmed, it wasn't suicide.

OLD STORY

The minister arose to address his congregation:

"There is a certain man among us today who is flirting with another's man wife. Unless he puts $5 in the collection box his name will be read from the pulpit."

When the collection plate came in there were 19 $5 bills and a $2 bill with this note attached: 'Other $3 pay day."

Though the United States has progressed amazingly in the last 100 years—see zipper—there is still a question whether we are making better history than our forefathers made.

Sometimes we think too many people in this country are taking more than their allowance of free speech.

There is some intolerance yet almost everybody resects the religion of people who are respectable.

Good Taste

Reg. U. S. Patent Office

There is an old saying: "Everybody loves a baby." And as a result of their popularity infants from time immemorial have had to take no end of mauling from their myriad admirers. The custom of indiscriminately kissing babies has extended through the centuries and there is a grave possibility that high rates of infant mortality have resulted largely from it. To learn the prevalence of throat affections, we need only endeavor to pass a peaceful two hours at the movies. I seldom seek this pleasure without having it marred by someone coughing upon me or at me throughout the program. And it is a conservative estimate that there are as many bad throats and lungs among baby kissers as among movie goers. And still we are not taking into account contagious diseases of the gums, teeth and sinuses that do not make themselves audible. The worst offenders are members of the baby's immediate family, especially those of the older generations, whose feelings young parents hesitate to hurt.

What's What At A Glance

Communiques Are Of Little Value
Propaganda Renders Them Useless
Editors Are Puzzled With Reports

By CHARLES P. STEWART
Central Press Columnist

WASHINGTON, June 24.—Generally speaking, a country that's engaged in war inclines to exaggerate its successes and minimize its setbacks. Probably this is partly a matter of wishful thinking. Considerations of morale likely enter into the equation, too. The belligerent likes to encourage its own fighters by convincing them that they're invincible. And if, by reports of its alleged victories, it can infilter into the enemy's ranks the notion that they're all but 100 per cent licked—why, that also is the kind of psychology desired by the authors of any given set of communiques.

It likewise usually is to the advantage of a war-involved power to have bystander nations regard it as well on the highway toward final victory. On the average these neutrals tend to be as helpful as possible, in reason, to a people who bid fair to be winners in a pending conflict. On the opposite hand, prospective losers are apt to be looked on askance. It doesn't speak very well for human nature that such is the case. Nevertheless, it is.

The present war started off with the respective sides running true to form, as per normal precedents.

Conflicting Reports

Herr Hitler's official reports represented the Germans as cleaning up the Allies wherever they met them. The Allies' account was that the Nazis were effectively blockaded; that it was only a question of time before they would be completely starved out.

It was a pretty confusing situation to the neutral press of the world.

For instance, all American news agencies, broadcasting outfits and big newspapers rushed their correspodents to Europe immediately upon the outbreak of hostilities, to get the whole story from close-up and at first hand.

In World war I accredited press representatives from overseas were invited to the opposing fronts, to see for themselves what was going on. They were allowed to venture onto a few battlefields and several of them actually got shot. Parentheically, a correspondent should not do this.

A correspondent's duty to his newspaper is to keep it supplied with the news it's paying him to gather, not to get himself perforated by personal presence on a fighting line concerning which he could keep himself just as well informed through a pair of binoculars.

Via Headquarters

Anyway, in our current war there was no such rush of neutral scribes to the two fronts as there was the other time. The belligerents didn't permit it. It was their idea to hand out their own war news, each according to its own liking—not as the correspondents saw things for themselves. The few correspondents at the front with both German and French armies went only where they were told to go.

The English and French herded most of their contingents of American reporters in London and Paris, where they fed them such news as their respective official information services saw fit. The Germans similarly concentrated their foreign reportorial corps in Berlin; Italy in Rome.

All the so-called news that these correspondents have been getting was what was handed out to them on official platters. It's been conflicting stuff, too. Correspondents in Berlin couldn't get anything but pro-German dope. Correspondents in London and Paris couldn't get anything but the pro-Allied kind.

It's been very puzzling to editors in this country. They could see that somebody must be misrepresenting; probably both sides. But there was no hitting on an average.

Change Of Tune

But, oh, how the tone of Allied official communiques changed when Paris fell!

German reports naturally were jubilant at once. But the Allies?

The Human Side Of The News

(By EDWIN C. HILL)

Copyright 1940 King Features Syndicate, Inc.

An efficient war command has a good intelligence department to learn all it can of the resources and plans of the enemy. This is admitted and obvious in the physical aspects of human strife. The intellectual safeguards of any system of living are less carefully built and maintained. There may be a Satanic assault on all that makes life worth living and we may not be aware of it until our lives and our homes are imperilled.

Against this menace, which is joined and continuous with the guns which serve the death warrant, we have no dependable intelligence service. And perhaps we give no heed to couriers who sometimes bring us news. I have been reminded of my own profound apathy in these crucial years by a quite horrifying book. "The War Against the West," by Aurel Kolnai, published by the Viking Press. Mr. Kolnai is a Hungarian. His book is a 700-page "intelligence" report on the intellectual blitzkrieg which Nazi Germany has launched against western civilization. It is a truly appalling summary, given profound and scholarly interpretation by Mr. Kolnai, as he traces the remote origins and inducements of the blazing intellectual nihilism of Nazi Germany today.

* * *

I have known too many decent and intelligent Germans to put them down as a bestial people. Nor does Mr. Kolnai so indict them. He is writing of National Socialism and its murderous assault on Christianity, on the humanities, as we have known and treasured them, on the Jeffersonian ideal of democracy, on every amalgam of peace, work and belief which is a bond of peace and a bond of the spirit.

You see here not Adolf Hitler alone but an army with banners advancing against the soul of modern man, and its deepest inner citadel. Mr. Kolnai's textual headings for his various chapters are quotations from various artificers of National Socialism. I append a few of them:

"We are under the great obligation of recognizing as a holy work of our volk's spirit the laws sinned by Adolf Hitler's name. Hitler has received his authority from God. Therefore, he is a champion, sent by God, for German right in the world."—H. Frank, Imperial Minister of Justice, 1935.

"There are no longer any private people. All and every are Adolf Hitler's soldiers, and a soldier is never a private person."—Dr. Ley, Chief of the Labor Front, 1935.

"The moral education of the people is incumbent on the State; it has a right to watch over the church, lest her ministers should teach an unseemly morality."—W. Stapel, 1933.

"Christianity has offered promises of happiness to the materially and spiritually poor, and cripples of body and soul, the slaves and the weaklings; it has heaped menaces upon the rich, the strong, the free, the healthy. It has preached the equality of men, at all their stages of evolution, before God, and thus invested the dull masses with a control over the ingenious, strong and proud individuals."—Baron E. Wolzogen.

"History works in the form of myth, not truth."—F. Wolters.

"Morality, as such as occupies no larger section of human life."—Wilhelm Stapel.

—(Alice in Wonderland.)

Yes, the time has come to talk of Kings. The Kings of the world have been, in the first place, well born, well educated,—taught by their forebears to be brave, courageous, and no matter what their private lives may have been Kings, generally, have been brave and courageous. They have not, as a rule, asked their subjects to suffer any physical peril that they were not themselves willing to face.

There have been so-called wicked Kings, more wicked perhaps than you might expect from their breeding. Take Henry VIII. His private life has been stigmatized by his historians as a wicked King. Yet Henry VIII was a very wise administrator of law; a very intelligent defender of England. By his knowledge of the Sea and the ships that sailed therein, he made it possible for Elizabeth, his daughter, to defeat the Spanish Armada. Personally, he was without fear.

Peter, surnamed "Peter the Great of Russia" shares with Henry VIII the reputation of being a very bad King, but he made of Russia a nation.

Frederick, surnamed "Frederick the Great of Prussia" is denominated as a merciless man, but he was a warrior without fear and one who perhaps stimulated his German successors to believe that they could rule the world by a War Machine.

There have been strong Kings and weak Kings, but seldom in the history of the world has there been a "Leopold"—Leopold of Belgium, a King who quit.

Leopold is the son of the late Albert of Belgium,—Albert who suffered with his subjects more grief even than the Germans caused in their present invasion of Belgium; Albert, who in the face of terrible odds, fought side by side with his soldiers in the mud and reek of World War No. 1.

What the historians of the world are going to say about Leopold may be just as unfair as what they have said about Henry, Peter and Frederick, but there is one thing that the historians cannot say—that he was a fearless King.

From a tone of comparative cheerfulness, they changed overnight to one of the blackest despair.

Their authors not only were pessimistic. They seemed to want to forecast the worst outlook they could present. Their object was manifest. Their aim was to extract an out-and-out war declaration from Uncle Sam against the Nazis

Former Premier Reynaud of France made himself pretty clear when he asked for American help. To be sure, he didn't urge clean-cut war, but the London News Chronicle summed up the Allied plea, when it editorialized, "In this momentous crisis America may have it in her power to tide civilization over its darkest hour. It is doubtful that anything short of a declaration of war could effectively alter the situation."

The Allies were quite awhile in getting around to the admission that help "short of war" isn't all they really wanted from the United States. They wanted war, too.

ORIGIN OF "TELLERS"

Persons who count votes are called tellers, but the word is a corruption of talliers. A tally was a rod of stick, marked with notches to indicate certain sums. It was then cut in two lengthwise, so that the parts when brought together would agree. The English exchequer employed tallies until 1783, the officers having charge of them being talliers, later tellers.

A variable pitch fan was developed recently for trucks and buses and is reported to achieve a noticeable saving in fuel. The blades are controlled by a thermostat, senstive to engine temperatures.

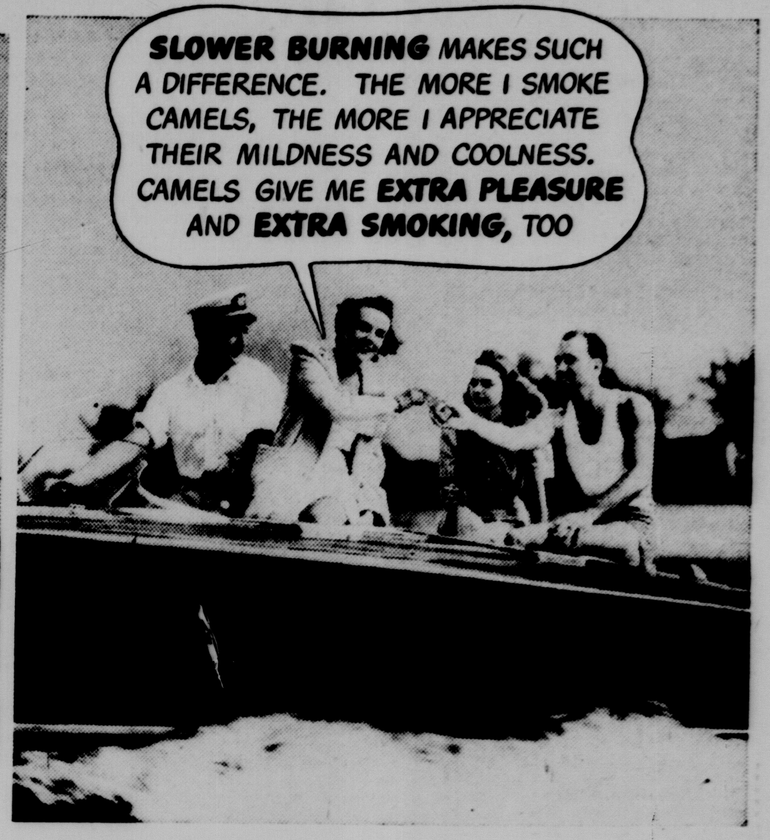
THERE'S A FRESH THRILL in every white-capped wave—a breath-taking bounce that says, *hang on or take your ducking!* Pretty Florence Holliss, riding the board above, likes the fast pace in sports. But in cigarettes, she prefers the slower-burning brand...Camels.



"THE FASTER THE PACE, the more the fun," says Florence Holliss, above. But she likes her smoking *slow*. "I always smoke Camels," Florence says. "Camels are extra mild and extra cool." Smoke Camels and enjoy *extra pleasure* and *extra smoking* (see below).

Smokers who live in communities where certain state cigarette taxes are in effect can save the cost of the tax—and, in some instances, more—through smoking Camels. EVERY DAY more and more smokers are discovering that the important "extras" in cigarette pleasure and value go with slow burning...Camels. For slow burning preserves and heightens natural tobacco flavor and fragrance ...means freedom from the excess heat and irritating qualities of too-fast burning. Camels, with their matchless blend of costlier tobaccos and a slower way of burning unequaled in recent tests (*see panel at right*), give you extra mildness, extra coolness, extra flavor...and extra smoking per pack. Get more pleasure per puff and more puffs per pack in slower-burning Camels.

W. H. Ice Will Teach College Summer Classes

Is Awarded Government Contract For 30 Students Of Two College Groups

Contracts for college flying classes from Westminster and Grove City college were awarded to William H. Ice, local pilot and instructor, today. The contracts, issued by the Civil Aeronautics Authority, call for the instruction of 30 flying students, 15 from each school.

It is expected that both of these classes will get under way in the very near future, and they will run through the summer months until all of the student pilots have obtained 35-hours and a private license.

Ground school instruction for the students will be given at their respective colleges, and the flying work will be done at the New Castle Airpost.

Mr. Ice just recently successfully completed the instruction of the initial class of eight from Westminster college. Alternates have been enrolled in the classes in case it is necessary for any of the students to drop the flying instruction.

State Patrolman Rescued By His Fellow Officer

Wisconsin Man Kidnaps State Trooper As He Is Being Taken To Headquarters

(International News Service)

BELLEFONTE, Pa., June 24—A 30 year old Wisconsin ex-convict was being held by state motor police today pending filing of charges growing out of the abduction of State Trooper John Amick.

The Wisconsin man said to be William Leach, forced the 26 year old state trooper to drive eight miles toward Pittsburgh before a fellow officer notified by an observant storekeeper overtook the kidnap car and overpowered the gunman. Leach assertedly was released six weeks ago after serving eight years for robbery.

Amick said the man, who was being questioned about an automobile wreck, admitted theft of a car stolen from Patterson, N. J. which was wrecked at nearly Boalsburg.

Police said Amick was taking Leach to a nearby sub-station for questioing and when they almost reached the Pleasant Gap barracks, the man shoved a revolver into the trooper's side and ordered him to turn around. The gun later was found to be loaded with seven steel-jacketed shells.

The man was captured by Corp R. E. Nash after a brief tussel, when a freight train forced Amick to stop his car.

At Harrisburg, Deputy Police Commissioner C. M. Wilhelm said state police at Bellefonte were, "studying the case to determine the proper charges." He added that he "doubted if a kidnap charge would be lodged against the man."

BRITAIN AMAZED AT PEACE DEMANDS

(Continued From Page One)

accused the French government of breach of faith, and the English declared that under the exile "provisional" government, the French colonies were determined to carry on the struggle.

Disposition of the French colonies and other major territorial considerations were left for decision at a later peace conference, which British quarters believed would be delayed for some time.

When the terms of the armistice became known in London, the British war cabinet under Prime Minister Winston Churchill met for two and one-half hours to study the details of the German demands.

And it was the British government which first revealed the terms laid down by Chancellor Hitler for peace—a peace which will not become operative until six hours after the French and Italians sign another armistice which now is under negotiation a few miles outside of Rome.

"Not To Use French Fleet"

The Nazi government specified that it "solemnly declares it has no intention of using the French fleet for its own purposes."

"During the war the French fleet will be stationed at ports under German control, except those units necessary for coast surveillance and mine sweeping," the armistice conditions stipulated.

More than half of France is to be occupied by the Germans under the terms of the armistice. Paris, the rich industrial area centering on Lille, all the famed channel and trans-Atlantic ports such as Le Havre, Boulogne, Cherbourg and Bordeaux, must be marked by a line from Geneva to Dole, thence back through Moulins and almost to Tours, then almost straight south to St. Jean-De-Pied-Port, near the Spanish border and 30 miles from the coast.

Informed quarters predict that occupation of northern France by the Nazis implies that Italy will occupy southern France and the Mediterranean coast.

Reported Armistice Terms

Terms of the armistice accepted by the French in the Compiegne forest conference as announced in London include:

Occupation: The Nazis must occupy all of the western coast of France, and all territory north of a line reaching roughly from Tours to Geneva—France to pay all costs of the occupation. Areas not yet occupied in this territory to be occupied immediately.

Fighting Forces: The French army, navy and air force to be demobilized; only a small force will be permitted to remain in territory not to be occupied by either Germans or Italians. No French forces may leave French soil.

War Materials: The Reich may demand surrender, in good condition, of all artillery, tanks, aircraft and munitions. No materials may be conveyed to Great Britain.

Marine: No French merchantsmen may leave their present harbors and all ships outside France must be recalled. The French government must facilitate transport of goods between Germany and Italy.

Radio: All broadcasting stations in unoccupied territory must be silenced.

Prisoners: All German prisoners of war must be released, but French captives will remain in custody until a permanent peace is signed.

Navy: The French navy is to be recalled to French waters, to be disarmed and interned under Italian-German control. Germany promises not to use the French fleet for belligerent purposes. Specified French ports will be under German control. A portion of the fleet—to be determined by Italian-Nazi decision—will be left free to safeguard French colonial interests.

Valid Until Peace Is Signed

The Franco-German armistice is to become effective when France has concluded a parallel agreement with Italy, and will remain valid until such times as a peace pact has been signed. However, the armistice may be denounced at any time by the Nazis if the French do not fulfill its terms.

The Nazis also invited the French to move the seat of their government to any city in France that they wished—Paris, if they preferred.

While there was no mention made in the armistice terms of the disposition of Nice, Savoy and Corsica, British quarters assumed that the Germans left that matter entirely up to the representatives of Premier Mussolini, who began their negotiations with the French Sunday. And there are no illusions in Britain as to what Il Duce will demand in the way of French territory.

However, there was heartening word to the British in reports that the French colonial governments are determined to continue on in the conflict, regardless of the capitulation of the home government.

An authoritative British statement listed Syria, Indo-China, Tunis, Morocco, Senegal, Djibouti and the Cameroons as eager to continue fighting.

To these the British will give "every financial assistance", it was stated.

No indications have been given as to the eventual terms of peace, but an authoritative English source said "it seems clear that Germany has no intention of discussing peace at the present time".

(Berlin reports, however, indicated that Germany and Italy intend to rush peace negotiations in order to permit them to concentrate fully upon subjugation of Britain.)

Oppose Willkie For Nomination

(International News Service)

PHILADELPHIA, June 24—Republican congressmen from 21 western and mid-western states today went on record against the candidacy of Wendell L. Willkie, utility magnate, for the GOP presidential nomination.

At a closed session, the representatives bitterly assailed Willkie and declared that if he is nominated that the Republicans would lose the west in the November elections.

A committee was appointed to draft resolutions opposing Willkie, although his name is not to be mentioned specifically.

"Rep. Stephen Bolles of Wisconsin, a member of the group, said "Willkie's nomination will mean the defeat of the Republican party and will mean that we won't win a house or senate seat west of the Mississippi."

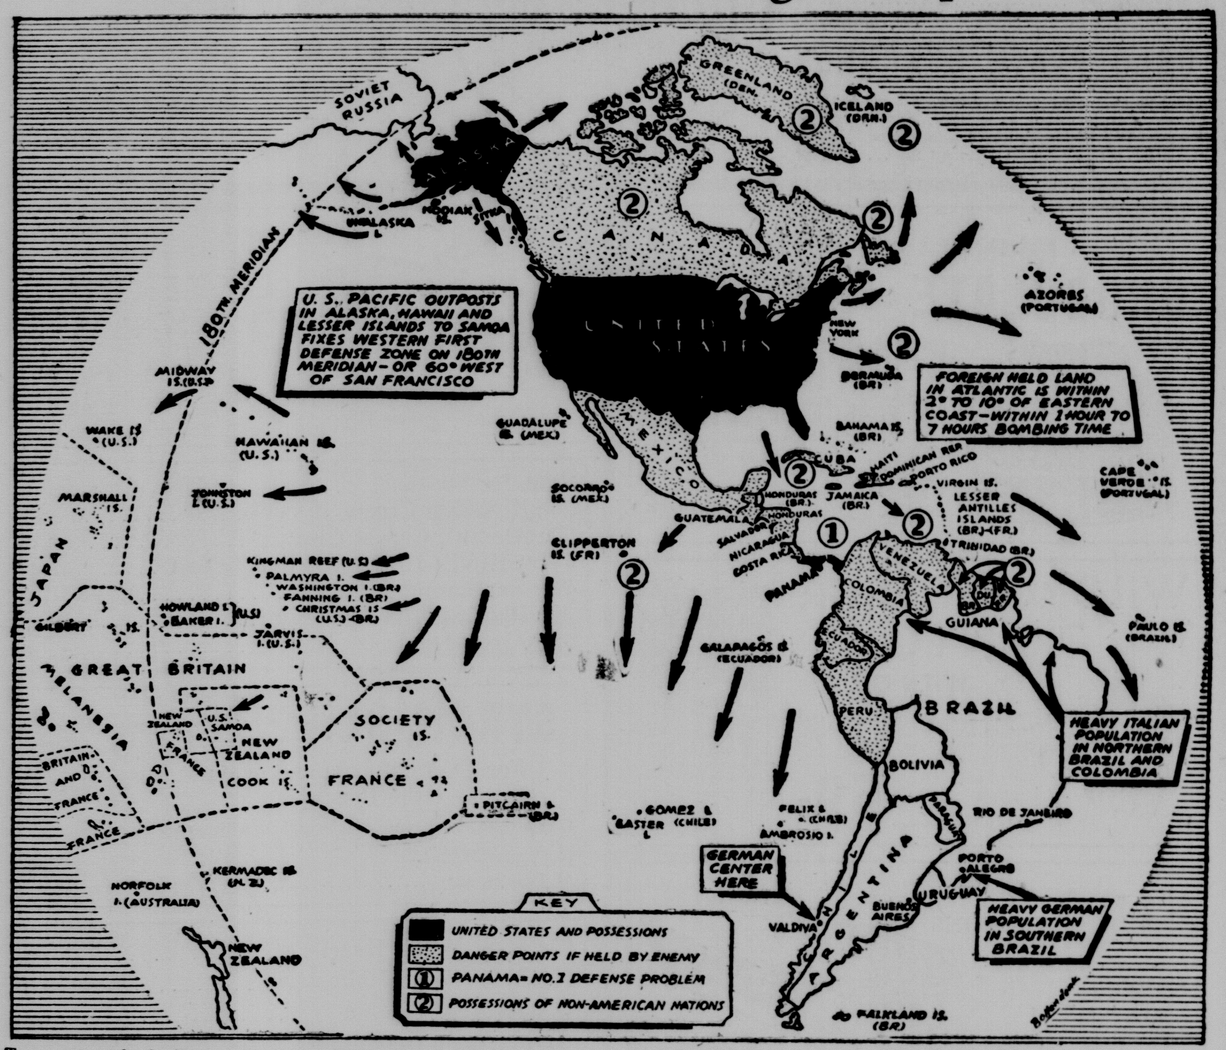
Where U.S. Posts a Warning—'Keep Out!'



To many people the Monroe Doctrine is just a phrase. To Uncle Sam it means that no European power can seize territory or set up a government in the Western Hemisphere. This map shows the territory covered by the Doctrine which, the U. S. has warned the Axis powers, is still in force. The map also shows the vital points where violation of this doctrine might be attempted. Strengthening of the Panama Canal locks will greatly enhance the power of the U. S. navy to deal with possible violations and to prepare for all eventualities. *(Central Press)*

Most clever, was the arrangement of attire for the entire wedding party, which included white tailored suits for both the men and women. The bride was especially pretty in her suit of the new white twirl cloth, extremely tailored, with blue accompaniments. She wore a shoulder corsage of bride's roses. Her father gave her in marriage.

Mrs. James Gilmore, sister of the bride, was matron of honor. She also wore a white twirl cloth suit, with a similar corsage of roses.

Dr. Dafoe's Column On The Quintuplets And The Care Of Your Children

(Copyright, 1940, King Features Syndicate, Inc.)

SUMMER CARE OF BABIES.

Last Friday, the summer solstice, was a zero hour for babies in the battle of life. For this is the season that brings babies their worst time. I was not surprised to pick up a New York newspaper and read that a sudden June heat wave had been accompanied by a sharp rise in the mortality rate under one year.

Yet there is no reason for the mother of an infant to become panicky now. There are many things she can do to overcome the dangers of her baby's first summer. Reassuring herself that with proper care and precaution she can get him safely through the warm months is the first thing. It is always unwise for her to agitate herself by fear or worry. If she is nursing the child, such emotions affect the milk, and the child suffers. Even if not at breast, the baby is disturbed by his mother's loss of poise and cheerfulness.

Next thing for her to do is give thought to the baby's clothing. I think probably a majority of "new" mothers overdress their babies. Baby, like us, suffers from the heat but, unlike us, he can't get up and take his coat off. Neither can he pick cooler, shaded spots. These things you must do for him.

It may seem unnecessary to tell mothers how to dress her baby in the summer, but I am impelled to do it because so often I have been called to a house when the mercury was hovering between 90 and 100, to find a child swathed in enough clothing to keep it warm in zero weather.

When summer heat comes your child should wear, besides his diaper, a light-weight dress or sun suit. Unless it is a cold day he won't need more than this. And in extremely hot spells, the diaper alone is enough.

The child should spend most of his day in a shady spot outdoors unless the humidity makes it cooler indoors. Only when he is being given a sun bath should be be exposed to the direct rays of the sun.

When the sun bath is begun, the front part of the child's body should be exposed to the sun for a short, carefully measured period. Then turn him over so the sun bathes his back.

It's not too much of a precaution to use a watch to time baby's exposure to direct sunlight. A surprisingly large number of persons haven't any idea of how time flies. If you think not, try using a stop-watch on your friends' guesses of how long a minute is.

The baby's first sun bath shouldn't last more than thirty seconds—one-half minute or fifteen seconds on his front, fifteen seconds on his back. With each succeeding bath, this time can be increased a little. But don't lengthen it too quickly, because baby's skin is so tender, it can get a serious sunburn easily.

We see to it that the Quintuplets get plenty of sun in the summer. When they go out to play, they wear very thin, light clothing. During the first part of this play period, there are usually visitors watching from a screened gallery, so the Quins wear more clothes than usual. After the visitors have gone, the Quins remove some of their clothes and play around in as little as the weather will permit.

DAILY DOZEN

(From the Medical Society of the State of Pennsylvania)

An apple a day is apt to become a monotonous diet.

Apple scrapings each day prevent baby's summer diarrhea.

This is not a new discovery.

Mothers of centuries ago fed their infants apple scrapings.

They knew little about pectin, or apple sugar carbohydrate.

But they did know the apple scraping helped their babies.

Apple therapy is growing in popularity.

Apple powders are now being prepared for easy handling.

Agar, found in milk sugar and beet sugar, is added to pectin.

A certain amount of each is added to the baby's formula.

This is a new treatment for diarrhea in the newborn.

But mothers in ancient times used the same remedy.

Leo Moerschbache State Commander

Elected By V. F. W.—Ask All Immigration Be Suspended Until End Of War

(International News Service)

YORK, Pa., June 24 — The 21st encampment of the Pennsylvania Department of the Veterans of Foreign Wars elected Leo Moerschbache, of Philipsburg, state commander, at its closing sessions Saturday at which it adopted a resolution urging congress to suspend all immigration until the end of the war.

The new state commander is a member of Post 321, of State College. He is former senior vice commander and succeeds Lloyd C. Pike of Harrisburg.

Mrs. Alice V. Jones, of Penbrook, suburban Harrisburg, was chosen president of the Ladies Auxiliary, succeeding Miss Myrtle Beyer, of McKeesport.

In another resolution adopted by the delegates, congress was asked to bar all non-citizens from any position of authority or trust within the government.

Major General Edward C. Martin, head of the Pennsylvania National Guard, addressing the VFW, told the members that "bread and defense cannot be made by resolutions," but that action was needed. The United States army now has a drill form perfected which even a schoolboy can master, said Martin, in a reference to President Roosevelt's suggestion that the nation's manpower be trained for preparedness.

Some 30,000 delegates, auxiliary members, junior musicians and military personnel staged a five-hour parade Saturday and a grand military ball closed the encampment.

Other officers elected in addition to the new state commander are: Senior vice commander, Frank C Brooks, Yeadon; junior vice commander, Harry Small, Brookville; judge advocate, Daniel Boyle, Tamaqua; quarter-master, David Long, Lebanon; chaplain, Rev. Darlington Kulp, Reading; and surgeon, Dr. William B. Orear, Waynesboro.

EARLY SOIL CONSERVATION

One of the earliest suggestions of soil conservation in Massachusetts was an act of the general court in 1739, forbidding farmers to turn their livestock loose to feed on the meadows between Truro and Provincetown. Horses and cattle had eaten so much of the beach grass that the sand dunes were heading toward the meadow land.

One sentence was handed down Saturday morning by Judge Thomas W. Dickey who sat alone, Judge Braham being at the Bar convention in Bedford Springs.

Minor Thomas was given sixty sixty days in the county jail for attempted larceny. The charge was brought by a concessionairre of a carnival which showed in Wampum during the past week. He alleged he found Thomas tossing blankets out of his stand.

Thomas said he had a chance to go to the C. C. C. camp in July and Judge Dickey told him that if he could go the sentence would probably be suspended.

One sentence was held over for further investigation. Louis Walzer pleaded to a charge of aggravated assault and battery. There was some discrepancies in the statements of the prosecutrix and the defendant and Judge Dickey held it over until Friday, July 12.

The recent county committee meeting of the Democratic party is due for another airing according to County Commissioner Joseph P. Travers. Mr. Travers states that a petition has been circulated and is being presented to the state committee for a review of the meeting here. The members of the committee dissenting from the action of the committee allege the action taken was illegal.

You will pay less if you pay your loan ahead of time since you pay charges only for the actual time you have the money. Payments include charges at Household's rate of 2½% per month on that part of a balance not exceeding $100, and 2% per month on that part of a balance in excess of $100. This rate is less than the maximum prescribed by the Small Loan Law.

PENNA. R. E. HENDERSON, PRESIDENT

When you borrow at Household Finance, you pay charges only for the actual time you have the money. The sooner you repay, the less your loan costs. Four monthly installments of $26.58 each, or a total of only $106.32, for instance, will repay a $100 loan in full. (Payments shown in the table include all charges. You pay nothing more.)

One rate to everyone

Household charges only one rate—the same to everyone, whether new customer or former borrower.

All you do to borrow

All you do to get a Household Finance loan is to acquaint us with your problem. We require no salary or wage assignment, no stocks or bonds. (Loans are made on furniture, car or note.) No questions regarding your credit are asked of friends or relatives—and you don't have to ask friends or fellow-workers to sign the loan papers with you. You get the money you need in a simple, private transaction.

Fair treatment

Household shows every consideration to the borrower faced with sickness or unemployment while paying on a loan. Last year Household foreclosed on only one chattel mortgage for each 10,000 loans—an action taken then only as protection against fraud.

Find the loan you need in the first column of the table and read across. See how you can repay your loan with a small part of your pay check. Then phone or visit us. You will be under no obligation to borrow.

President Studies Reported French Peace Terms

Confers With Secretary Hull

Chief Executive Is Silent On Terms Reported Given To France

RETURNS FROM HYDE PARK HOME

By GEORGE DURNO
International News Service Staff Correspondent

WASHINGTON, June 24.—President Roosevelt returned to Washington today from a Hyde Park week end without immediate comment on the drastic armistice terms imposed upon France by Germany and Italy.

Shortly before leaving Hyde Park last night the president was apprised by the official British version of the Nazi-French armistice conditions, which included surrender of the French fleet to the victorious Germans.

Another Hitler condition particularly noted was that directing recall of all possible French merchant ships.

Calls Experts

Shortly after his arrival at the White House Mr. Roosevelt had arranged to consult with Secretary of State Hull and other diplomatic experts about this nation's next move to combat possible economic encroachments by the dictator nations.

The president brought back to Washington on his special train Secretary of Commerce Harry Hopkins, Secretary of the Treasury Henry Morgenthau and Averill Harriman, New York financier who recently completed a tour of duty as chairman of the National Business Advisory Council.

The president was studiously avoiding any open recognition of the fact that Republicans were opening their national convention in Philadelphia today to nominate a candidate who may run against him this fall.

Huge New Shovel Put In Operation

Carbon Limestone Company Has One Of Largest Shovels Of Type In World

Carbon Limestone Co.'s new shovel, weighing 910,000 pounds, ate into the stripping bank of the company's quarry near Hillsville, Pa., for the first time Saturday afternoon, as about 1,000 persons watched.

Where other shovels operate down in the quarry, this shovel operates from the top of the bank. It's 200-foot boon with an eight cubic yard bucket can reach 90 feet down into the quarry. It is expected to decrease the cost of quarrying flux stone which is being used in increasing quantities as steel production increases.

The shovel, a dragline type, was operated by John Beck, Pittsburgh insurance man, who operated the first dragline type shovel many years ago. Shovel company officials said it is one of the largest shovels of that type in the world, and is the first of the type used in limestone stripping operations.

At present the shovel is operating on the old Judge Arrel farm in Poland Township, Ohio, although the company's crushers and plant offices are on this side the Ohio-Pennsylvania state line in Pennsylvania.

MUSICAL WORLD SHIFTS

Dr. Werner Wolff, formerly one of Germany's most famous musicians, says the world's musical center has shifted from Europe to the United States. Wolff and his wife, Emi Land, are teaching music at Tennessee Wesleyan college. He says that opportunity in the field of music in Germany has declined but that in America it has increased.

Population Count In District Is Complete

The curtain fell Saturday on Uncle's Sam's 16th decennial population-counting job in Lawrence, Beaver and Butler counties. Not for another decade will the resident census be taken again.

"Today the last enumerator was heard from," said District Supervisor Jacob Venger, who is now preparing to close his district headquarters here in the Greer building by July 1.

CENSUS DISTRICT, NOBODY TO COUNT!

Without an explanation, Washington's census headquarters would be puzzled over one enumeration district report which its New Castle district office is mailing in. Naturally, they would wonder why a whole enumeration district at Conway (Beaver county) was missed—or they would if it weren't explained that the whole district mapped out by census geographers (who mapped the nation's 140,000 districts) happens to be the Conway yards of the Pennsylvania railroad!

The rail center is so large they didn't believe there's not a house nor a resident in the district. But that's true! The entire Conway population is in another enumeration district, not much larger than the area covered by the yards.

"This week," said the census chief, a resident of Beaver Falls, "will be 'announcement week' or something like that—we'll have lots of population reports to release!"

Will Know New Castle's

Among them will be New Castle's own, still not tabulated because the office staff was burdened all week by preparation of reports which Washington called for. They are now in and early this week the city total for 1940 will be known.

Many township and borough totals will also be issued, the office reported.

The Lawrence-Beaver-Butler district had 306 enumeration districts. The last was counted Saturday. Counting began last April 2.

Large Crowd Attends First Solemn Mass Of Young Priest In St. Vitus Church Sunday

A joyous occasion in the life of Rev. Fr. Joseph A. Mastrangelo took place Sunday morning at 11 o'clock in St. Vitus church, when he celebrated his first solemn high mass.

The solemn services were conducted before a large assembly of friends and relatives of the young priest. During the impressive ceremony, appropriate selections were heard from the choir.

"The Dignity of Priesthood" is the subject chosen by Rev. Fr. Sebastian Ippolito of St. Lucy's church.

In the afternoon at 4 o'clock, "open house" was observed at the home of his parents, 912 South Mercer street, with many friends and relatives of the young priest calling to extend their congratulations.

Father Mastrangelo was presented with a chalice from Alfonso Scarazzo.

Guest priests who attended the reception were: Rev. Fr. V. V. Stancelewski, of SS. Philip and James church; Rev. Fr. Edward R. Szelong, of the Madonna church; Rev. Fr. Elias Nader, of the St. John the Baptist Maronite church; Rev Fr. Nicholas DeMita, of St. Vitus; Rev. Fr. Michael Filipcic of Aliquippa; Rev. Fr. Herbert F. Butterbach, of Idaho; Rev. Fr. M. Cap., of Washington, D. C.; Rev. Fr. Sebastian Ippolito of St. Lucy's and Rev. Fr. Joseph L. Abbate of St. Vitus church.

Fther Mastrangelo, who was ordained on June 16, at St. Vincent's Archabbey in Latrobe, Pa., is the son of Mr. and Mrs. Anthony Mastrangelo of 912 South Mercer street.

For the present, Father Mastrangelo will perform his duties at the New Castle hospital, until he receives his official appointment from the Most Rev. Hugh C. Boyle, D. D., bishop of the Pittsburgh diocese.

CERTAIN OIL COMPANIES are doing everything but *claim outright* that their *regular*-priced gasoline will perform as well as our *premium*-priced gas, Gulf No-Nox.

That isn't even within shouting distance of the facts.

There are three methods most generally used to determine the anti-knock value of a gasoline. These tests are used by us, used by our competitors, and are recognized by everybody in the industry.

On these *tests of quality*, made by an *independent* laboratory, the regular gasoline, which is making the most to-do about being the equal of Gulf No-Nox, RATED 7 FULL POINTS BELOW GULF NO-NOX!

Even 3 points in anti-knock rating is a *noticeable* difference—7 points is a *BIG* difference . . . gives No-Nox a tremendous advantage in the high-compression engines used in the newer cars . . . makes No-Nox well worth the two-cent premium it costs.

You have lived long enough to know *that in everything sold in this world* you get about what you pay for. Gasoline is no exception. So, take it with several grains of salt when *anybody* tells you his regular fuel is as good as Gulf No-Nox.

No-Nox isn't just something that sounds good in *print*. It makes a real difference in your *car*. Try a tankful the next time you need gas and find out—to your *own* satisfaction—whether any regular gas, anywhere, can even be *compared* with No-Nox!

U. S. Will Send More Ships For Citizens Abroad

(International News Service)

WASHINGTON, June 24.—The state department took first steps Saturday to send additional ships to southwestern Europe to bring home Americans stranded in Europe's war zone.

The department announced that it had instructed American consulates at Bordeaux, France; Lisbon, Portugal and Madrid to determine how many Americans in those areas wish to return to the United States.

Previously, the state department had sent the steamships Washington and President Roosevelt to Europe to bring home refugees. Several days ago, officials of the department said that they would not send any more ships to British or Irish ports, as the waters near those nations are too dangerous. Americans wishing to leave them also had received ample warning and opportunity, the department pointed out.

CHEMICAL ENERGY RELATIONSHIPS

Today chemists without having to conduct a single experiment can frequently calculate whether a certain product can be produced from new and untried raw materials, the American Chemical society reports. Energy relationships are studied to learn whether or not an untried reaction will liberate free energy. Energy has a natural definite tendency to scatter, and this tendency provides the driving force of chemical reactions.

'LEARN-TO-SWIM' COURSE SUCCESS

Saturday's Hike, Feed Bring Finals To Y. M. C. A. Instruction

A hike, a dip in the "Y" pool and a big noon feed were Saturday's closing features of the successful "Learn-to-Swim" campaign, which the Y. M. C. A. has been sponsoring for two weeks.

While attendance this year did not equal that of last year, leaders of the campaign, offered free of charge each June to boys between 10 and 17 who can't swim, were gratified over results.

Of the entire five groups of boys receiving instruction, just three failed to learn to swim. Many of the boys swam 15, 20, 30 and 45 feet, but a fourth of the number swam the entire 60-foot distance of the pool. That qualified them as junior beginners.

Competent instructors were in charge of all the classes. They included John Fraser, Frank Bush, Bob Brest, Willis Foster, Newt Campbell, Harold O'Brien, Harold Dickson. Heading the campaign was Physical Director William Winter.

Those qualifying in 60-foot swim were Joe Goodman, Gabriel Conti, Elio Picarro, Nick Quarto, Frank Kirsch, Ed Golonka, Robt. Vaughan, Carl Felix, James Bigley, Francis Rogan, Homer Miles, Amelio Russo, Wm. Ferry, Emil Smolnik, Leo Carrigan, Tom Daugherty, Robt. Aiken, Glenn Hutton, Louis Retuno, James Demos, John Pace, Ray Cooper, Angelo Via, Bob Dale.

The Crotons got to Sugent for two runs in the first inning and were never headed, as Stone hurled steady ball to not allow the Saints a run until the first of the ninth.

The only extra-base knocks were by Andy Lasky and Micco. On Wednesday night Croton meets the Red Sox in a postponed league battle.

Sports World Ramblings

Lowe to Hall of Fame—From his Long Beach, California home, I. A. Williamson, recently dipped his pen in ink and went to bat for Bobby Lowe, probably New Castle's greatest contribution to the baseball world. In a letter to The Sporting News, Williamson pointed out that Lowe has been overlooked so far as baseball's Hall of Fame is concerned....

Williamson wrote: "Being a follower of the game since 1875, I should like to say something about baseball's Hall of Fame. It seems to me that at least one worthy old timer has been overlooked in the selections. The player is Bobby Lowe who, back in 1894, established a record by making four home runs and a single in a nine inning game.....

This mark stood for 38 years until Lou Gehrig made four homers in 1932. Lowe, always a gentleman on and off the field, did much to bring the game up to its high standard of sportsmanship. In justice to the worthy, I think Robert Lincoln Lowe deserves a place with the others in the Hall of Fame," I. A. Williamson, Long Beach, California...

The suggestion surely deserves recognition. According to those who knew and saw Lowe in action, the ex-localite, now residing in Detroit, was a model player. His conduct and sportsmanship were above reproach. On the field and at bat, Lowe ranked with the best of that era. In naming Lowe to the famous diamond shrine, moguls would be paying tribute to one of the grandest personalities in the history of the game.....

Diamond Pot....The diamond world held its breath last week fearing that someone might shout "break up the Browns," after the St. Louis has copped seven in a row ..Flash! The Yanks are no longer favored to cop the American League banner. Broadway books opened at 3 to 5 today, the bookies lay 4 to 1 against the champions.....

Sid Hudson, the Washington Senator who missed a no-hitter by an eyelash won 24 victories against four losses with Sanford of the Florida State League last year....Plans are now underway whereby Tommy Reis, now chucking for Newark, and Phil Rizzuto, now wearing a Kansas City uniform will don New York Yankee suits in the hope of halting the tail spin....

If nothing else, night baseball is a life saver. In 1939, the St. Louis Browns lured only 130,000 cash customers. Since the lamplights were strung up, the Brownies have now passed the 100,000 attendance mark. The season is far from over....Tiny Bonham, Kansis City's star hurler who has been on the sidelines, should be ready for action soon....

West Pittsburg had two big innings the first and second when they secured all of their runs. Heavy hitting was done by Mike Marky with a pair of triples and By James Marky, Joe DeMonaca and Davis.

BILLY JURGES IS HIT ON HEAD BY FAST BALL SUNDAY

(International News Service)

NEW YORK, June 24.—The third "bean ball" victim in the major leagues this season, Billy Jurges, New York Giants' shortstop, was resting easily in Polyclinic hospital today with a severe brain concussion.

Jurges was "beaned" by a pitch which slipped as it left the hand of Bucky Walters, ace Cincinnati Reds hurler, in the seventh inning of the first game of yesterday's doubleheader. Jurges, who never lost consciousness, readily accepted Walters' explanation that the incident was purely accidental and entirely unintentional.

Indians-Red Sox Split Twin Bill

Indians Win First Game, But Drop Night Cap, Tigers Gain On Leaders

By ED KIELY
(International News Service Sports Writer)

NEW YORK, June 24.—The American league race was a bit tighter today as a result of Detroit's 9 to 2 win over the demoralized New York Yankees behind the four-hit hurling of Buck Newsom. The victory enabled the Tigers to climb to within a game and a half of the first place Cleveland Indians.

Pitcher Al Smith boosted the Indians' winning streak to eight straight by halting the slipping Boston Red Sox, 4 to 1, in the opening game of a twin-bill, but third baseman Jim Tabor slapped out two homers in the evening to give the Red Sox the nightcap, 2 to 0.

Reds Win Two

Washington and St. Louis split a doubleheader, the Senators winning the first, 12 to 5, and the Browns capturing the nightcap, called in the seventh because of darkness, 3 to 2. Rain cancelled the Philadelphia-Chicago twin bill.

Cincinnati took the National league lead once again by trimming the New York Giants twice, 7 to 4 and 2 to 0.

Brooklyn played 22 innings with Pittsburgh, the results being one defeat, one tie and second place. The Buccos won the first game 8 to 5, and then held the Durocher Dandies to a 4-4 stalemate in the nightcap which was called after thirteen innings because of darkness.

The Chicago Cubs whipped the Philadelphia Phillies, 3 to 2 and 7 to 2, and the Boston Bees halted the St. Louis Cardinals, 7 to 5 and 10 to 5. The second game was called in the eighth because of a Sunday curfew.

Ellwood Boy Suffers Fractured Leg — Accident At Jalopy Race

ELLWOOD CITY, June 24.—A 10-year-old Evans City boy was killed, an Ellwood City lad suffered a broken leg and several others were less seriously hurt Sunday afternoon at Evans City's "jalopy race" when a part of the bumper of one of the racing cars, which wrecked and crashed into a tree on the final lap of the meet, splintered and struck bystanders close by the tree.

Dead of a fractured forehead was George Laverne Treich, son of Mrs. Ada Treich of Evans City.

Part of the shattered bumper, it was reported, hit the boy directly on the head.

John Shaffer, son of Mr. and Mrs. Lawrence Shaffer, Orchard avenue, Ellwood City, had a leg fractured by a piece of the bumper.

Others in the group near the tree suffered minor injuries, those at the race told officials.

At the wheel of the wrecked car, one of several entered in the "jalopy" event staged at the Wahl race track, near Evans City, was Alexander Began, of 120 Balph avenue, New Castle. He was not badly hurt.

Officials summoned from Butler said they were told that Began's car struck the tree about three or four feet from the ground, and that in the impact the bumper shattered and showered the spectators. The accident occurred about 4 Saturday afternoon.

The Treich boy was hurried to an Evans Ctiy doctor's office, where he died about 5:15.

Surviving him is his mother, one sister and two brothers. Funeral services for him will be in Evans City Tuesday at 2:30 p. m., Daylight Saving time.

Legion, Elks Downed By Leading Teams In Saturday Contests

ELLWOOD CITY, June 24.—In the American Legion Junior League contests at Ewing Park Saturday, the Clovers came from behind with a five run rally in the sixth inning to down the Legion 7 to 4, and increased their hold on first place to a two and one-half game margin as the second place Elks were swamped 12 to 1 by the Manos in the second tilt of the afternoon.

In the first game, the fourth-place Legion team gave the league leaders quite a scare as Laszlo held them to 3 singles and 2 runs in the first 5 innings while his teammates had counted 3 markers off Johnson and Glasser. In the last of the sixth the Clovers displayed their characteristic form as they manufactured five markers on a walk, an error and four singles to clinch the game.

Edison took the following parting shot at Congress for its slowness in acting on naval appropriations:

"Our regular navy appropriation bill was ready in December. It was not passed until June 10. While they were considering the navy speedup bill, Hitler conquered Holland, Belgium and France. Congress could do a little streamlining on its own account."

AROUND CITY HALL

Owing to persistent complaints concerning the blockade of Mahoning avenue by P. R. R. trains, the blowing of engine whistles and ringing of locomotive bells, council today instructed that officials in charge of trains meet informally with council in city hall for the purpose of remedying the situation. A date for the conference has not been set.

Solicitor Robert M. White today in city hall wrote council relative to the statement of claim filed by Mrs. Agnew M. Rhodes vs. the city concerning alleged damages to her East North street property, saying that he is of the opinion, the action is improper and cannot be maintained. He has prepared an affidavit of defense, he added, raising the law question of whether Mrs. Rhodes can obtain such an action. As suggested, Mayor Charles B. Mayne was directed by council to authorize the execution of White's proposed action.

In 1930, there was filed a lien for construction of the South Liberty street sewer against the late Mr. and Mrs. Dominick Felix. A daughter, Ann Felix, has kept the taxes on the property paid and has paid some money on the lien. The balance including interests and costs amounts to $149.41. She has offered to pay the face and costs, or $71.16. In making a report, Solicitor Robert White recommended today in city hall to council that: "This was somewhat of a replacement sewer. I deem it advisable to accept the proposition." He said such consideration was given others and should be extended to Miss Felix. On motion of Councilman J. D. Alexander, council will discuss the recommendation.

On June 7, the court of Lawrence county made an order in the case of E. J. Connery vs. the city et.al., reducing the assessment on the ground, to $40,000, which was a reduction of $8,500. The assessment on the building was not changed. "I have read the court opinion and it is based on a finding of fact so I am sure that the appelate court would not reverse it," Solicitor Robert White informed council today in city hall. The communication was referred back to Solicitor White for another report, in view of the reported sale of the property.

Ordinance for the re-paving of North Mercer street between Lincoln avenue and Grant street, was passed by council which met today in the city building. Twenty feet of the 30 foot cartway will be of concrete and two strips of five feet width on each side of the cartway will be of an asphaltic material.

Property-owners of East Fairmont avenue between Delaware and Audley avenues, requested council today to erect a street light. The petition was referred to Safety Director D. O. Davies, for a recommendation.

At London, Biddle will establish contact with the exiled Polish government, Hull said.

As Ambassador William C. Italians Report Victory Against French Defense

Rome Reports Major Fortification Line In Southeastern France Broken

(International News Service)

ROME, June 24—While France and Italy debated the terms of an Armistice that will remove France from active hostilities, the Italian high command today jubilantly announced breaking of the major fortification line in southeastern France.

A major offensive begun on June 21, 11 days after Italy declared war, has carried Italian forces to the Isere valley in one of a series of sweeping victories, an official communique said.

Here is the text of the statement:

"Our troops began an attack on June 21 on the Alpine front from Mt. Blanc to the sea.

"Formidable defense preparations in the rocks of the high mountains, extremely adverse atmospheric conditions and strong reaction by the enemy which decided to oppose our advance did not diminish the offensive drive of our troops which everywhere scored notable successes.

While with daring individual actions, our formations captured some strong points such as Fort Chenaillet near Brianconn and Razet in lower Roija, our entire unities reached the bottom of the Isere valley at Arcguilliage, Tinea and Vesuvia, penetrating our adversary's fortified system and smashing the enemy front. Our troops continue to advance on the entire front.

Neshannock Avenue Resident Appeals From Assessment Made By City

In court room No. 1 this morning the appeal of John J. Book of 466 Neshannock avenue from the assessment fixed by the board of appeals of the city of New Castle is being heard before Judge W. Walter Braham.

The property, consisting of a lot, stucco dwelling, two brick dwellings, brick factory building and six garages, on Neshannock avenue, formerly the Jere Bauman property, had been assessed by the city assessor at $19,000, which was raised to $19,740 by the board of appeals.

FROM ME TO YOU

By MESSERALL

Just to be different we are not going to talk about the weather and how bad it was over the week end and how many people were disappointed because their picnic plans were upset . . . yes my friends we are not going to say a word.

* * *

The NYA Girls Center on Atlantic Avenue have made a request for an American Flag . . . it seems they are without cash for such and would like to know if any person or group of persons would like to make the Center a present of an American Flag . . . if anyone is interested it is suggested they call the Center.

* * *

All roads are leading to Philadelphia this week . . . the Republicans are holding their Convention . . . and will decide just who will be the Presidential candidate . . . there will be much talk and when it's all over the party should be united to push one man. Things will be lively now until fall when the election takes place . . . keep your heads and think clearly . . . your vote is as good as the next fellows.

* * *

Friday night the Rainbow Girls will hold a dance at Cascade Park . . . to the teen age this event is the high light on the summer season. And what a fine thing it is . . . young blood moving in rhythm to good music. Those who will dance Friday night will be the ones to run this community in not too many years to come . . . good upright American boys and girls.

* * *

"Mary, Mary quite contrary, how does your garden grow?" . . . well for the majority of the folks in this community it grows full of weeds . . . and how. If everything grew as well, what a bumper crop there would be. The way things look now the farmer will have all his crops ready about the same time . . . hay is ready to be cut and it won't be long until some of the grain is ready . . . and the town farmer is having a great time following his crop . . . but mother nature will take care of it all no matter what you say.

* * *

Have you been reading the classified ads? Now is the time . . . especially if you are Looking for something for that much needed vacation . . . beds, autos, boats, etc.

Stock Market Is Colorless

Market Is Mixed At Opening Of New Week, Air Lines Stock Opens Higher

By LESLIE GOULD
(International News Service Financial Writer)

NEW YORK, June 24.—The stock market was mixed and colorless today.

United Air Lines and American each ran up more than a point before their rise was checked. Air craft manufacturing issues, though, were sluggish and mixed.

The depressed steel group showed Bethlehem off almost a point at one time, while U. S. Steel, Crucible and Youngstown Sheet & Tube each gave up fractions.

Chrysler also was behind a minus sign, but General Motors moved slightly above Saturday's final quotation. Coppers, except for Phelps-Dodge, were easier. Most rails, International Harvester, General Electric, Montgomery Ward and U. S. Rubber also lost some ground.

Utilities continued features on the upside, and chemicals added moderately to their previous closings. American Tobacco "B" and Liggett & Myers "B" each were up more than a point at their highs.

Two Injured In Auto Accident

Anne Miller and Jean Steele, both of Toronto, O., sustained facial abrasions and body bruises while riding, State Motor police reported today, in an auto reportedly driven by Arthur Gray, Toronto, at 9:45 p. m. Sunday. Gray's car and two others were involved in a crash at the junction of the Wilmington highway and a road leading into Walmo from Highland avenue extension.

According to reports, the car of Hubert Wagner, 615 Croton avenue, was also involved in the crash, which police assert was caused when Norman G. Wimer, 332 Waugh avenue, New Wilmington, apparently failed to observe a "Stop" sign. Information against Wimer for failure to observe a Stop sign will be sworn to before Squire Madigan of Neshannock township by the police, it was stated.

BRIEF SESSION OF FORMALITIES THIS MORNING

(Continued From Page One)

matics, none of the main candidates being present, and none but routine resolutions offered.

With race for the presidential nomination wide open—largely because of the spectacular rise of a shaggy-haired utilities magnate named Wendell Willkie—the convention was called to order by National Chairman John D. M. Hamilton, his fist swinging a gavel that launched the party on one of the most critical campaigns it has had in history.

What may well become the keynote of the convention was to be found even in the invocation delivered by the Rev. Albert Joseph McCartney, pastor of the Covenant-Presbyterian church, Washington, D. C., who prayer that this nation escape the scourge of war.

Likewise, the welcoming address of Mayor Robert E. Lamberton of Philadelphia, recalling the turbulent days of 84 years ago when the party was born. The nation, he said, needed the party in 1856; it needs it now.

Late In Starting

Hamilton was 17 minutes late in letting his gavel drop. Although the delegates were milling on the floor of Philadelphia's huge convention hall long before the scheduled time, the galleries were slow to fill.

If the gallery boys came to see color, they got an eyeful. Flags, state banners and emblems were thicker than ward heelers at a candidate's free picnic. There were cameras to the right of you, and cameras to the left of you—— Klieg lights hung from impossible angles and flashlight bulbs popping with the rapidity of machine guns.

At one end of the high wall was a brass band: at the other a pipe organ. The music got you goin' and comin' just in case anybody happened to be a bit tone-deaf to bands and pipe organs, there were assorted quartets and soloists.

Delegates pushed and shoved, shook hands, laughed and shouted, but it was even money bet that not a half dozen out of the 1,000 carrying the prized floor credentials would bet you a thin dime on the outcome when the balloting on the candidates started Wednesday or Thursday.

Plenty of Candidates

Candidates? Sure. Plenty of them. Ohio's senator Taft, New York's racket-busting Dewey, the remarkable Mr. Willkes, Senator Vanderberg of Michigan, stocky Joe Martin of Massachusetts, who is the minority leader in the house of representatives, New York publisher Frank Gannett, and bustling H. Styles Bridges, the senator from New Hampshire.

If you couldn't find a candidate in that list then there were others: Former President Herbert Hoover, Hanford Macnider of Iowa, Governor Arthur H. James of Pennsylvania and others.

Hamilton let the gavel fall at 11:17, but he was content with only a couple of bangs and the formal proceedings continued to be delayed. At 11:25 the camera men discovered that Alf M. Landon, the 1936 G. O. P. presidential nominee had taken his place with the Kansas delegation in the third row from the front.

Alf Landon Poses

The grinning Alf obligingly grabbed a Kansas standard and posed for pictures for the next five minutes. He has repeatedly told reporters that his main interest in the convention is the 1940 platform. He heads the resolutions committee and favors aid for the allies, but is against involvement unless this country's security is dangerously menaced.

Will Hays, former national chairman and former "president maker" joined the Indiana delegation launching and shaking hands, but silent as to his choice for the nominee.

At 11:40, Hamilton again seized the gavel, the band which had been blaring out a brassy rendition of the "Beer Barrel Polka" ceased firing and a fresh effort was made to get the convention actually under way.

Hamilton alternately pleaded with the delegates to take their seats and with cameramen to let up on the picture taking.

Finally Hamilton got order, and then proclaimed: "that the delegates had convened at 11 a. m. on this, the 24th day of June, 1940."

Actually it was 11:45 but Hamilton had the air of what's time to a Republican.

Sing "America"

The delegates then rose and sang "America" joined by the galleries, which were rapidly filling.

Following the invocation, Hamilton deferred to the photographers for the "official" convention picture —you know, the one of all the delegates in their seats with half of them leaning at a

Volant College Alumni Gathers On Wednesday

Dedication Of Memorial To Founder And Early Students Will Climax Gatherings

REUNIONS WERE STARTED IN 1915

Volant College Alumni and former residents of that community will gather again in Volant, Wednesday, June 26, for the silver anniversary of the annual gatherings, which will climax these gatherings of the past quarter of a century, as a memorial boulder is dedicated to the memory of the founders of the college and those students who attended there almost a half century ago.

The reunions were started in 1915, when the late Attorney A. Martin Graham was named its first president. John Graham was vice president; Alex McConahy, treasurer; and Mrs. Scott B. Hamilton, secretary.

Interest continued to grow in these annual gatherings, but with President Asher A. Galbreath and his wife, having passed away, it is likely that the attendance will again wane, as the members are growing older each year, and the number being called to the great beyond is growing annually.

The gathering this year will take place in the Methodist church, where dinner will be served, following which the program of the afternoon will start promptly at 1:15 p. m. During the morning hour, the Alumni members and former townsfolk from a distance will gather to reminisce.

Attorney Homer C. Drake will preside at a short business session. A memorial to all those who have passed away, will be read by Hon. James A. Chambers, which will be of interest to relatives.

Mrs. Harvey Fouse, of Pittsburgh, a former student at the college will give several vocal numbers, accompanied by Mrs. Allen Hunt. Pep singing will be led by Rev. H. E. Naylor, former Volant pastor.

After this program, the numbers will go to the old campus where the memorial tablet, which has been mounted on a native granite boulder, will be unveiled. little Lowell Kent Leonhardt, of East New Castle, a great grandson of Thomas Clinefelter, president of the board of trustees when the college was founded.

Frank S. Brenneman, who has been general chairman of the memorial committee, will preside at the dedication. Attorney Thomas Sampson, of Mercer, will present the memorial to the citizens of Volant, and the acceptance and principal address of the afternoon will be given by Judge W. Walter Braham. The invocation will be given by Dr. S. A. Kirkbride, of New Wilmington.

The idea of the memorial was conceived by William Allen, and the committee which had charge of procuring the boulder and erecting it, was composed of John B. Shaw, chairman, F. F. Simpson, Wendell Allen, William Allen, Clyde Blevins, Henry Potter and Henry Broadbent.

Those assisting with the placing of the tablet, were: J. Elder Bryan, A. Reid English, Harvey Martin, and Ralph Cunningham.

The wording on the tablet was arranged by Hon. James A. Chambers, Judge W. Walter Braham, and Miss Mary Minehan.

The finance committee was composed of: A. Reid English, Miss Olive Clinefelter, Mrs. Scott B. Hamilton, Miss Daisy Totten, John C. Syling, Clyde Lockhart, T. A. Sampson, Pierce Minner, Miss Nancy McConaghy, and Edward Galbreath.

The present officers of the association, are: Homer C. Drake, president; Miss Olive Clinefelter, secretary; Mrs. Scott B. Hamilton, corresponding secretary; and Miss Mary Minehan, chairman of the Memorial committee.
